

## **Resolutions**

### **MassNAELA Resolution Regarding Proposed Federal Budget Cuts to Legal Services:**

In recognition of the vital access to legal representation that the Legal Services Corporation provides to disabled and elderly individuals of limited means, we strongly oppose the proposed federal budget call for the elimination of the National Legal Services Corporation.

Adopted by the MassNAELA Board of Directors, 3/24/17.

### **MassNAELA Resolution Regarding the Affordable Care Act So-Called "Repeal & Replace" Bill or the American Health Care Act:**

MassNAELA supports health care legislation that would both reduce costs and improve patient outcomes, enhance quality of care, and enable elders and individuals with disabilities to receive care at home. Because the proposed American Health Care Act is projected to raise costs for the elderly, result in fewer services for the disabled, and reduce funding for community-based long-term care programs, we oppose this legislation.

Adopted by the MassNAELA Board of Directors, 3/24/17.
