The Disability Law Center has contracted to work with Social Security's Representative Payment Program to monitor individual and nonprofit representative payees. Representative Payees provide financial management for the Social Security and SSI payments of Social Security beneficiaries who are not able to manage their own Social Security or SSI payments.

If you have clients who have Representative Payees and have questions or concerns about whether their Representative Payee is using their Beneficiary's benefits properly, or is fulfilling their responsibilities and duties correctly, ***please refer them to the Disability Law Center.***

General information about services:

DLC's Core Function is to keep people with disabilities safe from abuse and neglect wherever they live and where they receive services. DLC does most of this work by monitoring for abuse and neglect and investigating allegations of abuse and neglect as well as other systemic initiatives.

All services are free. There is no Massachusetts eligibility for unemployment income limits for services, but income may be a factor in case acceptance if capacity is limited.

DLC provides information and referral, advice, short-term assistance, and training so that we can use our limited resources by providing people with disabilities and their advocates with the tools they need for self-advocacy. DLC also takes some cases for legal representation.

Below is the list of types of cases DLC will take for individual representation:

Abuse and Neglect Cases

- DLC will accept allegations or complaints of abuse and/or neglect for possible representation, investigation, or monitoring. Individuals with disabilities who have allegations or complaints of abuse and neglect should be referred to DLC.

Human Rights Cases

- DLC will accept individual cases involving abuse and neglect, serious and systemic violations of human rights of individuals with mental health disabilities residing in facilities and individuals with developmental disabilities.
- DLC will evaluate cases for systemic litigation when an individual who is Deaf or Hard of Hearing encounters barriers related to communication access when interacting with law enforcement.

Civil Rights Cases

- DLC will accept a limited number of cases where students with disabilities are current beneficiaries of SSI/SSDI and need an accommodation in their college academic environment
- DLC will provide information, advice, and referral to individuals who have received a notice of a work-related overpayment from Social Security Administration so they may become self-advocates and avoid future overpayment issues.
- DLC will accept a limited number of cases to provide advice and self-advocacy assistance for individuals who are current beneficiaries of SSI/SSDI and have experienced discrimination based on their disability.
- Based on capacity, DLC will accept cases for representation and/or information or referral if the issue is directly related to disability discrimination as a response to COVID-19, including but not limited to:
 - Community Inclusion
 - Employment
 - Health Care (durable medical equipment, effective communication, delay to wheelchair repairs)
 - Housing
 - Human Rights
 - Public Accommodations
 - Special Education (abuse, neglect, restraint, seclusion, or bullying)
-

Community Legal Aid for Victims of Crimes Cases

- DLC's CLAVC project is focused on representation of individuals with disabilities who are victims of a crime when the issue they need help with is directly related to the crime they experienced. Individuals with disabilities who are a victim of a crime should call DLC to see if we have the capacity to provide legal assistance.

Based on capacity, DLC will accept cases for representation and/or information or referral if the issue is related to the crime the individual has experienced. Issues DLC will focus on include but are not limited to:

- Community Inclusion
- Employment
- Health Care

- Housing
- Human Rights
- Public Accommodations
- Special Education (abuse, neglect, restrain, seclusion, or bullying)

GBLS Children's Disability Project (CDP) **CLOSED**

The Children's Disability Project (CDP) provides advocacy for children under age 18, who have been wrongfully denied Supplemental Security Income (SSI) benefits. We accept cases at all levels of

administrative appeals and Federal Court. CDP provides limited advice to parents on their rights to Special Education for their children.

The legal definition of children's disability is different from the common notion of a disabled child. For example, a child is considered disabled if he/she is under age 18 and has a physical or mental condition that can be medically proven and which results in marked or severe functional limitations, and the condition must have lasted or be expected to last at least 12 months or result in death.

NOTE: CDP will perform a comprehensive merit assessment of each case before deciding on legal representation. Assessment will include a review of all pertinent records including treating sources (medical records), school, day-care providers, counselors, and other professionals who may have information about the child's level of functioning.
